Offshore staff

WOODBIDGE, UK – Yinson Production has contracted Amarith to supply four stainless steel horizontal pumps.

These will be installed on a condensate unit in a hazardous zone aboard an FPSO that will process produced oil from the Anyala and Madu fields offshore Nigeria.

Amarith has been given an 18-week deadline for the deliveries.

The two fields hold combined reserves of 193 MMbbl of oil and 0.637 tcf of gas.
