

**FOR IMMEDIATE RELEASE – 22 January 2020**

**Amarinth extends its depth and breadth in the Asia Pacific region with new orders from Yinson and Fatima**

**Amarinth, a leading company specialising in the design, application and manufacture of centrifugal pumps and associated equipment to the Oil & Gas, petrochemical, LNG, chemical, industrial, power and desalination markets, has recently secured two new orders from Yinson Offshore Production and the Fatima Fertilizer Company, further extending the company's presence in the Asia Pacific region.**

The first order, from Yinson Production, Malaysia, follows a previous successful delivery of pumps to Yinson by Amarith. This new order of four stainless steel horizontal pumps will be installed on a condensate unit in a hazardous zone aboard a Floating, Production, Storage and Offloading (FPSO) vessel. The FPSO will be moored off the coast of Nigeria processing produced oil as part of the Anyala and Madu Field Development project. The Anyala and Madu fields are estimated to contain combined reserves of 193 million barrels of oil and 0.637 trillion cubic feet of gas. To meet the project schedules, Amarith will design and manufacture the pumps on an aggressive 18-week delivery deadline.

– MORE –

The second order, from the Fatima Fertilizer Company, Pakistan, is for a 4m vertical sump pump in duplex stainless steel to be deployed in the expansion of its existing nitro phosphate plant in Mukhtargarh, Sadiqabadt, Pakistan. Amarith already supplies spare parts to support several existing Girdlestone pumps at Fatima Fertilizer and so when a new pump was required for the expansion, Fatima Fertilizer was keen to build on the existing successful relationship. The plant processes rock phosphate to produce nitro phosphate fertilizer and so the vertical pump will be designed to handle liquid phosphoric acid that also contains particulates.

The orders for Yinson and Fatima were both secured through Amarith's Malaysian office. Established a few years ago in Kuala Lumpur, the office has contributed to a strong growth in orders for Amarith from the Asia Pacific region.

Oliver Briggishaw, Managing Director of Amarith, commented: "We are delighted that our continued investment into the Asia Pacific region, supported through our Malaysian office, is yielding further orders. In addition, the breadth of markets coming to Amarith for pumping solutions, spanning oil and gas through to process and industrial, is very encouraging for our future business growth in this region."

#### **NOTES TO EDITORS:**

Founded in 2002, Amarith has harnessed the skills, creativity and passion of people who have worked in the pump industry for many years. Amarith delivers world-leading expertise in the design, application and manufacture of centrifugal pumps and associated equipment to ISO, ANSI & API standards, primarily for the Oil & Gas, petrochemical, LNG, chemical, industrial, power and desalination markets. The company's portfolio includes:

- **Pumps:** Horizontal and vertical API 610 pumps, chemical and industrial pumps, many of which are interchangeable with the Girdlestone pump ranges, eliminating the need for expensive modifications when replacements are required.
- **Pressure Vessels:** Protect System Plan 52 and 53A and 53B sealant systems with inbuilt condition monitoring for pumps and mixers that are suitable for Safe area up to Zone I.
- **Spares & Service:** High quality, fast lead time re-engineered spare parts to improve performance and extend pump life, including many which are directly interchangeable with the Girdlestone pump ranges.
- **Packages & Modules:** Condensate Recovery Units manufactured for Spirax Sarco incorporating the innovative Ci-Nergy intelligent variable speed control system, plus bespoke packages & skids built to order.
- **Business Systems:** state-of-the-art e-commerce technologies that deliver 24/7 support enabling customers to select pumps and place orders on-line and then track every stage of manufacture through to delivery, any time, anywhere in the world.

The company operates globally from its base in Rendlesham Suffolk, United Kingdom and has a customer base of world-leading companies, including BP, Shell, ExxonMobil, GlaxoSmithKline, Pfizer, Spirax Sarco, Diageo, AMEC, Fluor and Halliburton.
