

FOR IMMEDIATE RELEASE – 12 March 2019

**Amarinth secures a further order of API 610 VS4 pumps with
NAMA for the ADNOC Umm Shaif Super Complex**

Amarinth, a leading company specialising in the design, application and manufacture of centrifugal pumps and associated equipment to the Oil & Gas, petrochemical, chemical, industrial and power markets, has secured a further order through its agent NAMA for USD 600K of API 610 VS4 pumps destined for the offshore Umm Shaif Super Complex operated by ADNOC in the UAE.

This new USD 600K order is for eight vertical API 610 VS4 drain sump pumps manufactured in either stainless steel or super duplex depending on duty. The pumps will be deployed at the ADNOC offshore Umm Shaif Super Complex (USSC) in the Arabian Gulf. The USSC project involves the expansion of the existing oil network and increasing gas supply.

Amarinth has worked with NAMA for over two decades and successfully delivered against many high-profile projects. Following the recently introduced In-Country Value (ICV) program by ADNOC for its suppliers, a procurement-led initiative to boost ADNOC's ICV contribution by focusing on local supplier selection and development, the close partnership between Amarith and NAMA delivers a high ICV, meeting ADNOC's aims and objectives.

NOTES TO EDITORS:

Founded in 2002, Amarith has harnessed the skills, creativity and passion of people who have worked in the pump industry for many years. Amarith delivers world-leading expertise in the design, application and manufacture of centrifugal pumps and associated equipment to ISO, ANSI & API standards, primarily for the Oil & Gas, petrochemical, chemical, industrial and power markets. The company's portfolio includes:

- **Pumps:** Horizontal and vertical API 610 pumps, chemical and industrial pumps, many of which are interchangeable with the Girdlestone pump ranges, eliminating the need for expensive modifications when replacements are required.
- **Pressure Vessels:** Protect System Plan 52 and 53A and 53B sealant systems with inbuilt condition monitoring for pumps and mixers that are suitable for Safe area up to Zone I.
- **Spares & Service:** High quality, fast lead time re-engineered spare parts to improve performance and extend pump life, including many which are directly interchangeable with the Girdlestone pump ranges.
- **Packages & Modules:** Condensate Recovery Units manufactured for Spirax Sarco incorporating the innovative Ci-Nergy intelligent variable speed control system, plus bespoke packages & skids built to order.
- **Business Systems:** state-of-the-art e-commerce technologies that deliver 24/7 support enabling customers to select pumps and place orders on-line and then track every stage of manufacture through to delivery, any time, anywhere in the world.

The company operates globally from its base in Rendlesham Suffolk, United Kingdom and has a customer base of world-leading companies, including BP, Shell, ExxonMobil, GlaxoSmithKline, Pfizer, Spirax Sarco, Diageo, AMEC, Fluor and Halliburton.
