

press release

FOR IMMEDIATE RELEASE – 09 March 2020

Amarinth taps into oil and gas projects in Africa with new Territory Sales Manager

Amarinth, a leading company specialising in the design, application and manufacture of centrifugal pumps and associated equipment to the Oil & Gas, petrochemical, LNG, chemical, industrial, power and desalination markets, has appointed a new Sales Manager for the Africa Territory to support the strong growth the company is seeing in new Oil & Gas projects being undertaken in the region.

Africa has seen a surge in new Oil & Gas projects over the past few years with challenging projects being planned or delivered, such as:

- Bongo FPSO Deepwater Project 120km south-west of the Niger Delta in a water depth of over 1,000m.
- Tilenga oil exploration and processing project in Uganda.
- Lake Albert Development Project in Uganda which expects to achieve around 230,000 bopd.
- Train 7 LNG project in Nigeria which will increase the NLNG facility's production capacity by 35 percent.

– MORE –

Amarinth has a strong track record of working in close partnership supporting EPCs and contractors around the world who require class-leading products, often with a bespoke design on short lead times, as underlined by the company's on-going investment in staff and offices for the Middle East and Asia Pacific.

To date, Amarith has been supporting EPCs and contractors delivering projects in the Africa Territory with existing sales staff based in its UK headquarters. However, the company has decided that the time is right to appoint a dedicated permanent Sales Manager for the Africa Territory. Itai Choto will split his time between bases in Nigeria and London as needed to deliver support to end-users, EPCs and contractors working on projects in Africa. Initially, Itai will be focused on the countries where Amarith believes its expertise and products are in most demand, including:

- Nigeria
- Algeria
- Uganda
- Mozambique
- Senegal

Oliver Briggins Shaw, Managing Director of Amarith, commented: "We have seen a strong growth in demand for our products from EPCs and contractors delivering against the challenging projects currently being undertaken in the Africa Territory. We always strive to deliver localised support where we can, as in the case of our established Middle East and Asia Pacific territories, and so we are delighted to now be in a position to announce the appointment of Itai Choto who will enable us to better support all of our customers working in the Africa Territory."

NOTES TO EDITORS:

Founded in 2002, Amarinth has harnessed the skills, creativity and passion of people who have worked in the pump industry for many years. Amarinth delivers world-leading expertise in the design, application and manufacture of centrifugal pumps and associated equipment to ISO, ANSI & API standards, primarily for the Oil & Gas, petrochemical, LNG, chemical, industrial, power and desalination markets. The company's portfolio includes:

- **Pumps:** Horizontal and vertical API 610 pumps, chemical and industrial pumps, many of which are interchangeable with the Girdlestone pump ranges, eliminating the need for expensive modifications when replacements are required.
- **Pressure Vessels:** Protect System Plan 52 and 53A and 53B sealant systems with inbuilt condition monitoring for pumps and mixers that are suitable for Safe area up to Zone I.
- **Spares & Service:** High quality, fast lead time re-engineered spare parts to improve performance and extend pump life, including many which are directly interchangeable with the Girdlestone pump ranges.
- **Packages & Modules:** Condensate Recovery Units manufactured for Spirax Sarco incorporating the innovative Ci-Nergy intelligent variable speed control system, plus bespoke packages & skids built to order.
- **Business Systems:** state-of-the-art e-commerce technologies that deliver 24/7 support enabling customers to select pumps and place orders on-line and then track every stage of manufacture through to delivery, any time, anywhere in the world.

The company operates globally from its base in Rendlesham Suffolk, United Kingdom and has a customer base of world-leading companies, including BP, Shell, ExxonMobil, GlaxoSmithKline, Pfizer, Spirax Sarco, Diageo, AMEC, Fluor and Halliburton.
